Veterinary clinic cleaning: what we clean

Walk the clinic after closing with your practice manager.

Clinic _____ **Address** _____

Walked by _____ **Date** _____

Lobby and check-in

- [ ] Hair vacuumed under benches and along baseboards
- [ ] Nose smudges cleared from door glass and low windows
- [ ] Floor scale platform and the floor around it
- [ ] Reception counter, card reader, pens and treat jar lid
- [ ] Retail shelves dusted, stock left in place
- [ ] Seating wiped, legs and undersides included

Exam rooms and treatment area

- [ ] Rooms cleaned in your practice's order, with your products
- [ ] Tables, countertops, sinks and faucet handles
- [ ] Cabinet pulls, door levers and rolling stools
- [ ] Disinfectant left for its label dwell time, then wiped
- [ ] Equipment and medications cleaned around, never moved
- [ ] Surgery and dental suite top-to-bottom clean when booked

Wards, isolation and boarding

- [ ] Cage and run doors, latches and kennel bank exteriors
- [ ] Ward sinks and counters, floor mopped to the drain
- [ ] Isolation room on its own sequence and its own tools
- [ ] Food prep counters and dish sink
- [ ] Supply room handles and shelves
- [ ] Weekend boarding visits timed around feeding and walks

Staff rooms and restrooms

- [ ] Break room counter, microwave, fridge handles and table
- [ ] Doctors' offices dusted and emptied
- [ ] Staff and client restrooms scrubbed and restocked
- [ ] Charts, client files and screens left untouched

Floor jobs a few times a year

- [ ] Exam-room and hallway vinyl stripped and refinished
- [ ] Ward concrete machine scrubbed
- [ ] Grout scrubbed back to color
- [ ] Comfort room carpet extracted for hair and odor

Notes
